Flexbox

#### TECHNIQUES

Paired Programming

Version Control

Agile Workflow

Object Oriented Programming

### VOLUNTEERING

Learn To Code - Teaching Assistant 2018  
Galvanize Denver

• Once a week we worked with around 15 students to learn the basics of HTML, CSS and JavaScript.

### EDUCATION

Galvanize - Denver, CO 2018 to 2019  
Software Engineering Immersive

### PROJECTS

#### EzDrive

React Native / Node.js / PostgreSQL / Knex.js / Native Base / react-native-svg-charts

EzDrive is a full stack native application that helps you track how much your car actually cost you. Every time you fill up your gas tank you input how much it costed and your current miles. You can budget how much your maintenance are going to cost and how long until you need them. With EzDrive you can get a total cost of ownership and see if your car is worth owning.

#### Portfolio Site

HTML5 / CSS3 / Sass

Personal Website to represent my developing career.

#### Weather Application

React / Bootstrap

A 5 day forecast weather application using a public API from OpenWeatherApp. You can search any city in the United States using the city name or zip code to get a specific forecast with error handling.

### EMPLOYMENT

#### MedChain

Full Stack Developer

Denver, Colorado  
Apr. 2019 to Current

- Developing new user-facing features using React.js.
- Building reusable components and front-end libraries for future use.
- Translating designs and wireframes into high quality code.
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers.

#### The Cow an Eatery

Manager

Morrison, Colorado  
Mar. 2016 to Apr. 2018

- Managed the hiring, training and placement of a team of 20 employees.
- Developed and planned weekly employee schedules based on availability and company needs.
- Monitored daily, weekly and monthly sales targets while maintaining cost and labor.
- Month over month sales increased by at least 20% from the previous year's sales every month I was employed.

#### Enseco Energy Services

Well Planner

Denver, Colorado  
Aug. 2014 to Aug. 2015

- Planned directional well paths based on client's requirements using Compass Directional Path Planning.
- Generated daily reports for up to 10 customers in order to show the status and progress of the well that was being drilled.
- Prepared final directional drilling reports for the drilling company.
