Jarel Culley

Web Developer

// About Me

Passionate about doing a great job. First rate interpersonal and communication skills, able to easily interact with fellow developers and customers alike. Comfortable with being the 'go to' person in a company, and strongly committed to all projects from inception right through to the end. Confident, friendly and easy to get along with.

Avid about fitness and the outdoors, Jarel enjoys an active lifestyle. He is often seen at the gym, mountain biking, or hiking a mountain. But mostly, he is spending time with his wife and 11 year old son.

// Professional Statement

As an ambitious problem solver with a passion for online businesses, and who would like to join a team of like-minded developers, Jarel has years of experience in creating logical and innovative solutions to solve complex problems. He is thorough and precise in everything he does, and has a keen interest in technology, mobile applications and user experience.

As someone who takes responsibility for his own personal development, he is continually evaluating and upgrading his skills so that he stays at the cutting edge of web development. He is a natural problem solver, who has proven himself by successfully completing projects for IT consultancies, software houses, web design agencies, and marketing companies.

He is able to organize his workload effectively and prioritize tasks. He can quickly understand business requirements and then translate these into functional requirements. He has a vast understanding of W3C standards, web accessibility & best practice. He is up to date with current design trends. All his websites are built for premium SEO support and cross browser compatability.

Jarel is looking for an awesome position with a company where outstanding performance is recognized and rewarded and where he can work on a variety of high profile projects.
