Web Designer

6-Aug-18
Odysys, Inc.
231 SW Scalehouse Loop, Suite 101
Bend, OR

Dear Odysys,

I recently viewed your job posting for Web Designer at startupbend.com and would like to introduce myself as person interested in the position. I have extensive experience in technology related fields and would provide a skill set which I believe closely matches your needs. I am very impressed with the quality and range of innkeeper services at Odysys and with your history of business growth, stability and company core values as expressed on the Odysys website and Facebook pages. I look forward to showing you what I can do and to have an opportunity to work with your highly regarded company.

Skills and Abilities:

Web design and web development including e-commerce solutions
Management of dedicated and secure web hosting environments with several domains
HTML/CSS/javascript/PHP/MySQL/CMS
SEO/SEM
Adobe CS(x) and Creative Cloud
Social media savvy
Project Management

So you can get an understanding of my sense for design and UX, these are URLs of the two most recent websites I have created: www.earthamongus.com (Joomla CMS) and www.quiltworks.com (proprietary CMS).

While I have been a longtime Bend resident, I currently have a commitment to "house sit" in Denver until the second week of September while my daughter is visiting in Amsterdam. After that time I will be responsive to meet with you or interview with short notice.

I may be reached on mobile at 541-728-8164 or email at david.n.ulrich@gmail.com.

Sincerely,

David N. Ulrich
