**May 11, 2017**

**Dear eCairn:**

As a recent graduate from the MBA program at the University of Colorado with a focus in Finance and 10 years of experience in high-pressure organizations managing teams I believe I am uniquely suited to the Digital Marketing & Growth Manager position at eCairn in Bend.

During my career in the military I was routinely responsible for managing large multi-faceted projects from idea to implementation. This included routinely engaging stakeholders and customers one-on-one to gauge and understand their needs. Additionally, with an MBA in finance combined with my operations background, I have a keen knowledge and respect for using data to drive decision making while combining that with experience and intuition of team-members.

My MBA coursework in conjunction with my time as a pilot have given me strong analytical and problem solving skills that have been honed in some of the most intense work environments in the world. I am a self-starter and I am comfortable wearing many hats in an organization, transitioning seamlessly between responsibilities and functioning as a problem solver in all areas.

Thank you for considering my application and I look forward to hearing from you soon.

**Sincerely,**

**Thomas C. Wisdom**
