Experience

Twitch Affiliate / Broadcaster - Twitch

2018-Present

Manages a variety channel that broadcasts culinary arts and video game play through in an engaging and meaningful way. Produces, schedules, and broadcasts video content to a remote website on a weekly basis. Analyzes audience retention data and viewer trends to produce targeted content and changes content to reflect audience wants and needs. Hands on experience with video and audio capture equipment, including web-broadcasting software such as Open Broadcaster Software (OBS) and Streamlabs.

Director of Testing / Psychometrist – Alliance Behavioral Health

2018

Director of Testing responsibilities include oversight of testing schedule/calendar through Electronic Medical Records (EMR) system and Valant software to ensure efficiency in meeting patient needs, oversight and management of testing materials and testing accounts, keeping the practice up-to-date on the latest versions of tests and briefing providers with information included in updates, and procurement of testing materials. Psychometrist responsibilities include entire description for prior position at Alabama Psychological Services Center (see below).

Psychometrist – Alabama Psychological Services Center

2013-2017

Conducts psychological evaluations dealing with various issues, such as ADHD through the life cycle, learning problems, pervasive developmental disorders, autism spectrum disorders, neuropsychological disorders, depressive and anxiety disorders, Department of Human Resources (DHR) evaluations, and disability determinations. Responsible for the administration, scoring, data analysis, and report writing of psychological and neuropsychological testing batteries under the supervision of four clinical psychologists. Training has emphasis on accuracy, validity, and standardization in administration and data interpretation. Responsible for collecting demographic information from a patient and providing detailed behavioral observations of the examinee that may be used by the psychologist to aid in test interpretation and diagnosis. Responsible for various clerical and administrative duties that include, but are not limited to, billing/coding of procedures for insurance claims and procurement of office and testing supplies. Utilizes Microsoft Office (Word, PowerPoint, Excel, Outlook) and Helper (scheduling software) on a daily basis. Health Insurance Portability and Accountability Act (HIPAA) certified. Applies contracting principles, laws, statutes, regulations and procedures sufficient to procure and administer

contracts for a variety of goods and services, such as psychological test administration packages and application-based test media. Applies American Psychological Association (APA) contract methods and contract types which requires specialized knowledge of APA and HIPPA contract administration policy, procedures, techniques, and evaluation/control methods sufficient to coordinate doctor and patient communication on complex, long term contracts. Uses negotiation techniques to meet and deal with representatives of private sector and with healthcare experts and managers in order to procure assigned products and services. Communicates through written communications and verbal discussions with patients/doctors.
