## EMPLOYMENT

2014-2015  
Nike

### Senior Technical Project Manager

At Nike I managed two teams within the Experience Delivery Framework group in the growing Consumer Digital Technology division. My regular responsibilities included managing development work for the Nike.com global expansion, planning and executing new eCommerce product launches, performance tracking and evangelizing accessibility compliance.

I coordinated with Development Teams, Business Analysts, Quality Assurance teams and DevOps to ensure regular product releases. Worked with NikeID, Commerce in the Cloud, DCF, Athlete Tolls and OneNike groups on foundational engineering initiatives.

2011-2014  
Razorfish

### Senior Technical Production Manager

At razorfish I managed several production teams working on award-winning interactive media advertisements for various Fortune 500 clients. I directly managed multi-disciplined teams working both locally and remotely. Responsibilities included defining project scope, providing training for project managers, hiring and training developers, overseeing and assigning all QA testing work and improving process management.

Project deliverables included responsive web properties, landing pages, banner ads and interactive HTML5 rich media ad units.

Campaigns of note: Best Buy / Intel Holiday Campaign (2011), Windows 8 Launch (2012), Tourism New Zealand's "100% Middle-Earth" Campaign (2013), Xbox One Launch (2013), Netflix Originals Campaign (2014).

Clients: Netflix, Xbox, Microsoft Office, Microsoft Windows, Holland America Line and Tourism New Zealand, Tempur Pedic, Experian, Best Buy, Nike, Bing, Google, Hawaiian Airlines, Intel and Windows Phone.

2008-2011  
Envoca

### Technical Project Manager / Lead Developer

At Envoca I managed all day-to-day development, SEO projects, traffic analytics and social media campaigns. I started our web analytics, responsive design and multivariate testing offerings. I evangelized and developed for several CMS's including Wordpress, MODx & osCommerce. During this time I also built our in-house CRM system and trafficking platform.

Clients included Kinetic Lighting, Anapol Schwartz, Mountain Top Cutters, Ostroff Injury Law and Soldier Hollow Resort.

2008-2008  
Oregon Coast  
Aquarium

### Web & Interactive Developer

At the Oregon Coast Aquarium I oversaw the integration of interactive technology and social media into new exhibits and maintained various web properties. Worked with Leopold Ketel & Partners on creative direction for new exhibits.

	<div> <div>2007-2008</div> <div>The Hinmon Agency</div> </div>	<div> <div>Technical Architect</div> <div>At The Hinmon Agency I collaborated with designers, photographers, film editors, and clients on multiple projects involving web development and search engine marketing.
