BendTECH

Community and Operations Manager

To Whom it May Concern,

Please accept my application for the Community and Operations Manager position at BendTECH. I found the position on the StartupBend Job Board.

With first-hand experience owning and operating a small service business, I believe I'd bring many applicable skills to the position. I've grown my business from zero to a profitable quarter-million dollars per year with no debt and no traditional advertising - focusing instead on customer experience. Along the way I've managed all facets of the business; marketing, business development, customer experience design, personnel management, sales, and web development.

This begs the question: "if business is good, why are you applying for a job?"

In short - I'm looking for a new challenge and a career pivot that will benefit from my entrepreneurial spirit and experience. I see this position as an opportunity to continue my professional growth while serving BendTECH's vibrant community of members.

As a small business owner, I'm comfortable balancing daily operations with bigger-picture strategic initiatives. I'm adept at finding and fixing problems and believe every system has room for improvement.

I'd welcome the opportunity to continue this conversation and learn more about the role. I can be reached by phone (541-951-5783) or email (jdanoliver@gmail.com). Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dan Oliver', with a stylized, flowing script.
