- MongoDB, PostgreSQL, rethinkDB, levelDB
- Agile development practices

PROFESSIONAL EXPERIENCE

COX, Lead Engineer & Node Architect, Atlanta, GA   **2014- Present**

Worked on the MakeMyDeal team building the digital retailing solution for the automotive team. Biggest impact was architecting and leading development on our platform taking it from 20k monthly visitors to over 10m.

- Oversee all architecture on our new stack
- Lead maintainer of the new stack and set development patterns and principles
- Led the refactor from a monolithic app to that of a service based architecture
- Architected and built our integrated app with Autotrader
- Built our current global logging service which supports all of our services
- Led the platform scaling from 20,000 visitors a month to over 10 million
- Primary technologies include React/flux/redux, HAPI, Node.js, MongoDB, Redis

Allulo, Co-Founder, Atlanta, GA   **2013 - 2014**

A two-man developer team focused on building payment products through the use of bleeding edge technology.

- Built web apps & payment infrastructure for large merchant acquirers
- Designed APIs centered around REST principles
- Used technologies such as Node.js, PostgreSQL, MongoDB, internal libraries

MyCloud, Co-Founder, Atlanta, GA   **2011 - 2013**

An incubator used to provide the infrastructure and capital needed to test various ideas.

- Companies attracted over 3 million users from over 100 countries
- Oversaw technology strategies and product development for portfolio companies
- Used technologies such as Node.js, MongoDB, PostgreSQL Backbone.js, etc

Fileden, CEO, Atlanta, GA   **2011-2012**

A cloud storage platform with over 3.2 million users.

- Took over Fileden in 2011
- Developed and managed product roadmap
- Implemented monetary strategies that tripled revenue

- Successfully led Fileden through its acquisition in 2012 by CX
