ASP.Net Web forms/ADO.Net – 2 years

ASP.Net MVC – 7 years

ASP.Net Core – 1.5 years

jQuery/css/javascript – 8 years

AngularJS – 4 years

Angular(2+) – 8 months

Xamarin – 1 year

Microsoft Office – 20 years

Microsoft Azure – 3 years

Unit and Integration Testing (nUnit, xUnit, Fixie, Selenium) – 5 years

Deep understanding of Domain Driven Design(DDD), data modeling, and value objects.

Additional backend experience with Autofac, FluentValidation, MediatR, integration and unit testing.

Additional frontend experience with Grunt, Gulp, Angular CLI, Ngrx/store, Rxjs/Reactive Programming, and TypeScript.

Build pipeline and cloud service experience with visual studio team services, Git, power shell, and AWS.

Good understanding of network topology principles, TCP/IP, HTTP, Routing, and security.

Work Experience   **Self Employed Software Developer**

Validation Services LLC., Bend, OR

8/2008 - Current

Owner and developer.

Developed full stack applications and business modeling for 3 startups:

- Clara: A virtual mortgage loan officer, lead generator, and pricing engine. This large scale .Net MVC project also including a sophisticated mortgage rate sheet importer.
- CareNetworQ: A personal health record for coordinating care of elderly patients. This project used a .Net Web API with AngularJS frontend. The personal health record brought families, care givers, and loved ones together in a secure shared portal. The goal was to keep all interested parties on the same page in the caring of a loved one.
- nTownie: A marketing platform for local businesses and marketing agencies to deliver high quality coupons, ads, and events to mobile users. A .net core backend and angular 2 frontend with mobile iOS and Android via Xamarin. Currently in development.

Full Stack Software Developer

FiveTalent Software, Bend, OR

5/2014 – 8/2016

Built custom websites for a variety of clients working on front-end and back-end application in an agile environment. Kanban was also used.

Met with clients to coordinate build, discuss scope, changes, and project status.

Actively managed projects.

Mentored new employees and interns.

Developed custom modules to license to clients. Wrote all documentation and API guides for modules.

Most projects were built using ASP.Net MVC and SQL Server. One of the larger projects included a seismic engineering certification database that delivered IEEE, and OSHPD seismic certifications on thousands of industrial products.

Mortgage Broker

ProQuest Home Loans, Mission Viejo, CA

11/2005 – 8/2008

Owner/Partner

Trevor Chunestudy
3190 NE Delmas St. Bend, OR 97701 – 541.241.0660 – trevor@validationllc.com

Licensed Mortgage Broker for the business.

Managed sales team of 12 to 15 loan officers.

Managed marketing, created sales leads, and operation finance with extensive use of Microsoft Excel and Word.

Originated home loans in 6 states.

Built custom version of Sugar CRM to fit companies mortgage profile in managing leads, clients, and loan processing work flows.

Senior Loan Consultant

Crown Lending Corp., San Clemente, CA

2/2002 – 11/2005

Originated home loans in 12 states.

Team lead for marketing and sales lead strategies.

IT Director

College of the Marshall Islands, Majuro, Republic of the Marshall Islands

2/2000 – 1/2002

Created the IT Department at the college.

Developed, installed, implemented, and managed IT infrastructure for college main campus(Delap) and satellite campus(Arrak). This included building 2 LAN's from scratch across 2 campuses. The main campus incorporated 200+ drops across 8 buildings while the satellite campus had 50+ drops connected via microwave antenna.

Partnered with PEACESAT at the University of Hawaii, Manoa and established a 64k data link via decommissioned NOAA GOES satellites that provided internet and video conferencing access to college campus.

Managed network with Windows 2000 server and Active Directory. Created and deployed multiple images across both campuses.

Trained and mentored local Marshallese staff to manage and maintain the network.

High School Teacher

Marshall Islands High School, Majuro, Republic of the Marshall Islands

1/1998 – 1/2000

Taught geography and government.

Trevor Chunestudy
3190 NE Delmas St. Bend, OR 97701 – 541.241.0660 – trevor@validationllc.com

5th Grade Teacher

Majuro COOP School, Majuro, Republic of the Marshall Islands

8/1996 – 5/1997

Taught in multi-subject 5th grade classroom.

High School Teacher

Majuro SDA School, Majuro, Republic of the Marshall Islands

8/1995 – 5/1996

Taught geography and religion.

Education   **BA Liberal Arts**

Loma Linda University, Riverside, CA

6/1995

Leadership   Although I have several years of teaching experience as well as running and leading a successful mortgage business, I am most proud of the young Marshallese students that I trained as the IT Director. Too often in these remote locations expats come in to fix a problem and either never leave or fail to leave behind a sustainable plan. I can say with great joy that the IT department I created and lead is to this date still in the hands of local Marshallese management.
