Current Address: Permanent Address:

861 SW Madison Ave   2545 NE Community Ln

Corvallis, OR 97330   Bend, OR 97701

Objective:

Seeking a job that will utilize my experience and skills in programming, as well as the opportunity to develop them more.

Professional Experience:

Intern Dev Ops at G5   June 2016 – Sept. 2016

-Helped manage the 5,000 websites that G5 creates for clients on Heroku

-Created custom Ruby gem that leverages Google's Pagespeed API for tracking efficiency of G5's websites

-Designed multiple webpages for G5's Website Provisioner to track website conditions

Intern Web Programmer at Nimble Development   June 2015 - Sept. 2015

-Developed multiple web applications using MVC framework in ASP.NET

-Implemented a unit testing framework to verify the resource factory manager and components

-Designed multiple front-end charts with Javascript to analyze traffic data

Oregon State E-campus Student Course Development / Programmer   June 2014 – Present

-Designed and developed a website that aggregates course data for our team management software

-Developed a web form application using PHP MVC framework for designing quizzes

-Managed and worked with other team developers on aforementioned projects

Education:

Oregon State University - Corvallis Oregon.   Fall 2012 – December 2016

-Completing a B.S. in Computer Science, Graphics and Simulations Option

-Courses taken include OpenGL Graphics, Shaders, Game and Simulation Development, Parallel Programming, and Graphics Rendering, all of which were in C/C++

Skills:

-Full stack development experience in ASP.NET, Ruby on Rails, and PHP

-Experience using cloud providers such as AWS and Heroku

-Thorough use of project management software including Asana, and Pivotal Tracker

-Great at troubleshooting problems
