EXPERIENCE

Consumer Insurance, Bend, OR — *Customer Service*

September 2017 - PRESENT

Attend to phones and help clients make payments, answer their questions and start new policies for auto, home and renters insurance.

Biovia, Bend, OR — *Software Engineering Consultant*

March 2017 - May 2017

Part of 3-man team responsible for upgrading system from .NET 2.0 to .NET 4.5.

Procare Software, Medford, OR — *Software Engineer*

September 2015 - March 2017

Full stack developer using agile methodologies with two week sprints. Designed and developed a website using HTML5, CSS3 and Jquery front end with an MVC, C#, SQL Server backend. Maintained payment processing software. Team consisted of one chief system engineer, two lead engineers and five software engineers with 100+ years of software experience.

EDUCATION

Oregon Institute of Technology, Klamath Falls, Oregon — *Bachelors in Software Engineering*

September 2011 - June 2015

Oregon Tech's curriculum is designed to teach students what happens "under-the-hood". You learn to program in C++ where they show you the basics then dive into more advanced topics like pointers and program architecture.

PROJECTS

Roctagons — *Maze Puzzle Game available on the Play Store.*

Developed using Unity, Roctagons is a puzzle game similar to PipeDream for the Nintendo. I was responsible for typography, UI/UX, graphics and game programming. Challenges included: Optimization, path-finding and look-and-feel.

SKILLS

HTML5 / CSS3 / JQuery

MVC / C# / SQL Server

Visual Studio / Unity / Android Studio / Team Foundation Server / GitHub

Design / Architecture
